Eco-Schools USA: Green School Resources Workshop!

The National Wildlife Federation (NWF) is the host for **Eco-Schools USA**, which provides a framework for **K-12 public, private, and charter schools** to go green with amazing resources. Through action teams of students, administrators, educators and community volunteers, Eco-Schools combines effective **green management of school grounds, facilities, curriculum, and student experience**. Join the movement and start fostering environmental stewardship today!

What you will learn at the workshop:

- * Who we are: National Wildlife Federation
- * Understand the Eco-Schools program and framework, the **partnership with Washington Green Ribbon Schools**, and the benefits (academic performance and financial savings) of participating
- * Curriculum connections: How Eco-Schools **meets NGSS** and other education standards
- * Learn about the **10 broad environmental pathways** available, project ideas, and achievement levels
- * Gain familiarity with the **self-guided website** and resources
- * Know how an environmental **audit** and **action plan** works
- * Meet NWF staff face-to-face who will provide support throughout the school year
